DETAILED ACTION

Claim Objections

Claim 36 is objected to because of the following informalities: To clear up an apparent typographical error, it appears that claim 36 should actually depend from -- claim 35-- not "claim 34". Appropriate correction is required.

Election/Restrictions

Applicant's election with traverse of Invention II in the letter of February 9, 2004 is acknowledged. The traversal is on the ground(s) that avalanche photodiode and the reference diode as directed in claim 17 collectively constitute a plurality of arrayed individual diode devices including at least one active photodiode and at least one reference diode as recited in claim 1. This is not found persuasive because claims 1 and 28 are directed to a photodiode array and an avalanche photodiode, claim 17 is specifically directed to a biasing circuit for an avalanche photodiode having a reference diode. Claim 17 is not limited to the specific photodiode claimed in either of claims 1 and 28; and the non-elected inventions do not require specifics of the biasing circuit of claim 17. The inventions are considered separate and distinct inventions.

The requirement is still deemed proper and is therefore made FINAL.

This application is in condition for allowance except for the presence of claims 1-16 and 28-34 to inventions non-elected with traverse in the letter of February 9, 2004. Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144).

Art Unit: 2878

Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.

The prosecution of this case is closed except for consideration of the above matter.
